LLDPE Water Storage Tanks

500 L to 5000 L

From the house of **POOKAT POLYMERS**

EXPERIENCE THAT ENDURES

SINCE 2000

For over two decades, Pookat Polymers has been manufacturing water storage solutions built for everyday reliability.

At the centre of the range is **Chancellor**, our flagship line of LLDPE water tanks, available across multiple capacities and layer constructions. The portfolio also includes **Red Sea**, offering dependable water storage at a more accessible price point, along with the practical Standard 2 Layer range.

From 500-litre everyday storage to larger 5000-litre requirements, the range is built around quality materials, durable construction and long-term performance.

100% VIRGIN LLDPE

Pure, high-quality material.

100% FOOD GRADE

Safe for storing drinking water.

STRONGER & DURABLE

Built for everyday toughness.

DOUBLE THREADED LID

Airtight, leakproof and easy to use.

UV PROTECTED

Protection from harsh sunlight.

10 YEAR GUARANTEE

Long-term peace of mind.

PRODUCT RANGE

CHANCELLOR

CleanPro

4 LAYER SELF-CLEANING WATER TANK

Designed to make routine tank cleaning more convenient, **Chancellor CleanPro** features a dedicated **bottom collection section and waste outlet** that allows settled waste to be discharged more easily. The tank is installed on a raised MS stand, providing access beneath the unit and allowing customers to choose from multiple stand heights based on installation requirements.

PRODUCT RANGE

CHANCELLOR Shield

3 LAYER & 4 LAYER WATER TANKS

Built with increased wall thickness, Chancellor Shield is available in 3-layer and 4-layer constructions for greater strength, durability and UV protection, while helping reduce heat transfer from the surrounding atmosphere.

Available from 500 L to 5000 L, Shield is designed for customers seeking a more robust water storage solution.

Variants

Shield 3 • Shield 4

Available Colors

• White • Black • Blue

Manhole Size

400 mm

Available Capacities

500 L • 750 L • 1000 L • 1500 L
2000 L • 3000 L • 5000 L

CHOOSE YOUR SHIELD

SHIELD 3

3 Layer Construction

Core multi-layer construction for durable daily use, with UV resistance and reduced heat transfer.

SHIELD 4

4 Layer Construction

Premium thickness option for peak strength, ultimate protection, and extended durability.

5000 L	1955 mm	1810 mm

CHANCELLOR

Red Sea Select

3 LAYER WATER TANK

Red Sea Select is a value-focused, three-layer range balancing durability, protection, and affordability. Available in three colours and 500 to 5000-litre capacities, it provides practical everyday storage. It features a more value-oriented wall construction than the Chancellor range while maintaining core material standards.
